

# INTERNATIONAL MONETARY FUND

Middle East Regional Technical Assistance Center

## **Regional Training on Tax Administration Diagnostic Assessment Tool (TADAT)**

The Middle East Regional Technical Assistance Center (METAC) will host a virtual regional Tax Administration Diagnostic Assessment Tool (TADAT) training during June 27-30, 2022, jointly with the TADAT Secretariat.

The International Monetary Fund (IMF) developed TADAT in collaboration with other development partners to provide an objective and standardized way of assessing the strengths and weaknesses of tax administrations, based on benchmark definitions of international good practices.

The primary objective of this training is to provide participants with an overview of the TADAT methodology and raise awareness of internationally recognized good practices and the process to request TADAT assessments.

The training will be delivered by IMF experts from the TADAT Secretariat and METAC. It will cover TADAT's nine key performance outcome areas. It primarily targets senior officials that have direct responsibility for tax administration outcomes and have significant experience in a wide range of tax administration operations (registration, filing, audit, payment compliance, etc.), as well as senior officials responsible for tax reforms, strategy, and planning.
