Regional Workshop on Supply and Use Tables

June 11-15, 2023

The International Monetary Fund (IMF)'s Middle East Regional Technical Assistance Center (METAC) and the Arab Institute for Training and Research in Statistics (AITRS) hosted a five-day regional workshop in Amman, Jordan, during June 11-15, 2023. The workshop aimed to build capacity in compiling supply and use tables (SUTs).

Twenty-three participants from 12 countries across the METAC and GCC regions attended the workshop. Topics included data sources and practical compilation techniques, balancing methods, transforming SUTs into input-output tables, and compiling SUTs in volume terms. Participants benefitted from presentations by the IMF expert, doing exercises for self-learning, and peer-to-peer learning through discussions on country practices.
