Stablecoins have experienced significant growth and received increasing attention in recent years. What does this mean for markets, regulation, and monetary sovereignty? This webinar presents an overview of stablecoins. It discusses market developments, use cases, potential benefits, associated risks, and the evolving international regulatory landscape. It will also highlight the need for international cooperation of different stakeholders to ensure a more resilient and inclusive financial ecosystem. The session will conclude with an interactive Q&A

Time – 1:00 p.m.– 2:00 p.m., Beirut time (See time in your city [HERE](#)).

Language – English with simultaneous interpretation to Arabic and French.

This webinar is intended for government officials tasked with the design and execution of digitalization of fiscal policy operations as well as NGOs and civil society organizations dealing with digitalization of public administrations.
