The International Monetary Fund’s Middle East Center for Economics and Finance (CEF) and the Middle East Regional Technical Assistance Center (METAC) are jointly organizing a Virtual regional training course on:

**Post Crisis Revenue Generation for Tax Administration**

The course will be held virtually during June 28-July 1, 2021, and it will be conducted in English with simultaneous interpretation into Arabic.

This webinar is primarily designed for senior officials of tax administrations (e.g., Director General, Deputy Director General, Directors of Functional Areas including taxpayer service, registration, filing, audit, payment compliance). It is also useful for senior managers in charge of tax policy development and analysis, to form a better understanding of how policy design may affect the return of tax administrations to normal operations post-COVID-19.

This webinar is presented by experts from the International Monetary Fund’s Fiscal Affairs Department and METAC. It covers the following topics:

- Restoring revenue post COVID-19
- Action plan to re-establish revenue collection
- Considerations for implementing the action plan
- Timing and sequencing of actions to move back to normal operations

The primary objective of this webinar is to provide guidance on how tax administrations can re-establish revenue collection as quickly as possible following the lockdowns imposed by COVID-19, to meet the resources necessary to fund responses to the pandemic, while being mindful of the economic impact that COVID-19 has had on businesses and individuals. The webinar discusses a multi-dimensional approach that should be used to develop an action plan that is country specific, and that can be used by administrations to help prioritize actions to promote revenue collection.

The sessions will be held four days a week (from Monday to Thursday).
