Technical Assistance Missions

Revenue Administration

**Egypt**

The Egyptian Customs Authority is preparing a revised organizational structure that is in alignment with the new Customs Act and reflects international good practice in Customs administration. The new structure is to be submitted to the government by the end of March 2016. To support this exercise, METAC provided Technical Assistance (TA) to develop and agree on key organizational design principles, review current proposals and advise on the necessary changes.

**Afghanistan**

The METAC Revenue Administration Advisor joined a Headquarters mission to meet with Afghan officials, and explore opportunities to provide future TA in the areas of Tax and Customs administration.

Banking Supervision

**West Bank and Gaza**

METAC short-term expert visited the Palestine Monetary Authority (PMA) and delivered TA on capacity development, mainly on how to assess bank’s risks and implement the risk-based inspection’s manual that METAC has assisted before in its development. This would save the PMA resources and efforts when supervising banks.

Regional Workshop on “Price Index Compilation Issues”

METAC and the IMF Statistics Department held a workshop on “Price Index Compilation Issues” in Beirut from February 1-5, 2016. The workshop addressed specific price statistics compilation issues of participating countries. International standards and best practices were also discussed.

The interactive workshop facilitated extensive discussions and included practical exercises. In a final wrap-up session, participants were given the opportunity to identify potential areas for future METAC TA support.

Twenty four officials from national statistical offices who are involved in the compilation of price statistics in the Middle East and North Africa (MENA) region attended the workshop. The countries represented included: Afghanistan, Egypt, Iraq, Jordan, Lebanon, Pakistan, Sudan, and West Bank and Gaza.

IMF Capacity Development is on Social Media

As part of the ongoing efforts to boost communications on the Fund’s capacity development activities, the IMF Capacity Development Department now has two social media initiatives up and running - a Facebook page and a Twitter account.

Twitter: https://twitter.com/IMFCapDev

Facebook: https://www.facebook.com/IMFCapacityDevelopment/

These are great platforms to enhance visibility of the Fund on-the-ground work, provide greater visibility to donors’ support to Regional Technical Assistance Centers, and increase broader awareness of IMF Capacity Development.

We very much welcome your comments and any feedback you might have on these two social media initiatives.

METAC planned missions for March 2016 can be found on our website at www.imfmetac.org
