

Public Financial Management

Regional Workshops in Fiscal Year 2017

Frameworks for the Management of Fiscal Risks (January 23-26)

METAC and CEF organized jointly a regional workshop on “Frameworks for the Management of Fiscal Risks”, in Kuwait City, Kuwait. The workshop brought together 26 senior managers and technical staff from the ministries of finance and central banks of 13 countries in the region¹ to share ideas and experiences in addressing fiscal risks, with a view to enhance their capacity to manage these risks, which, in turn could help make the region’s public finances more robust.

Building on a set of analytical tools and best practices designed by the IMF to help policy makers understand and manage fiscal risks, the workshop provided participants with a structured conceptual overview of fiscal risks, their sources, and principles and mechanisms for managing them. The workshop also provided a forum for participants to discuss and exchange views on related issues and the challenges they encounter in their respective jurisdictions.
