Regional Workshops in Fiscal Year 2018

TADAT Regional Workshop in Jordan, September 2017

METAC held a regional workshop on TADAT in Amman, Jordan during September 11-13, 2017. Twenty senior representatives of tax authorities and ministries of finance from 10 countries attended the workshop. The countries represented were: Afghanistan, Algeria, Egypt, Iraq, Jordan, Lebanon, Morocco, Sudan, West Bank and Gaza (all METAC members), and Oman.

Given the comprehensive nature of TADAT, and the volume of material to be covered, a series of three workshops have been planned. This workshop was the second in the series. It started with an awareness session on the TADAT process, and was followed by detailed discussions on the internationally recognized good practices espoused in the TADAT methodology related to the effective risk management, both for compliance and institutional risks. Examples of the practical application of these good practices helped to demonstrate how they add to better tax administration.

METAC will be providing future TA support for TADAT assessments throughout the region, in partnership with other development partners, where appropriate. So far, METAC has contributed to the TADAT assessment and implementation of its recommendations in Egypt and Jordan. Following the workshop and a subsequent FAD-METAC mission on future TA needs, Morocco also requested a TADAT assessment, which would be undertaken jointly by FAD and METAC.
